THE STATE OF NEW HAMPSHIRE

TOWN WARRANT

To the inhabitants of the Town of Harrisville in the County of Cheshire in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Eagle Hall in said Harrisville on Tuesday, the twelfth day of March, next at nine-thirty of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To see if the town will vote to petition the State Tax Commission to have an audit made by the Division of Municipal Accounting.

4. To see if the town will vote to raise and appropriate the sum of $94.00 (1/100th of 1% of the valuation) to the Monadnock Region Association of Southern New Hampshire for issuance and distribution of printed matter, newspaper and magazine advertising, calling attention to the resources and natural advantages of the Town in co-operation with the other thirty-seven towns of the Monadnock Region.

5. To see if the town will vote to raise and appropriate the sum of $85.00 to rent the so-called Winn's Field for use as a ballfield for the coming season, or to see if the town would rather vote to raise and appropriate the sum of $125.00 to rent the same field for use as a ballfield and as a playground for the younger children of the town, using the playground equipment owned by the town.

6. To see if the town will vote to borrow money on the credit of the town in anticipation of taxes.

7. To see if the town will vote to raise and appropriate the sum of $1,416.00 provided the state will contribute $2,832.00 for State Aid Construction.

8. To see if the town will vote to place three additional street lights on the Silver Lake road and appropriate $60.00 for the same.

9. To see if the town will vote to erect a permanent honor roll and appropriate money for the same.

10. To see what action the town will take in regard to exchanging trucks and appropriate money for the same.

11. To see what action the town will take in regard to the $200.00 appropriated last year for white pine blister rust control.

12. To hear reports of all town officers and pass any vote relating thereto.

Given under our hands and seal, this eleventh day of February, in the year of our Lord nineteen hundred and forty-six.

JOSEPH H. LAVIGNE,
BERNARD F. BEMIS,
JOHN D. GRIMES,
Selectmen of Harrisville.

A true copy of Warrant—Attest:

REPORT OF
HARRISVILLE SCHOOL BUILDING COMMITTEE

At the risk of repeating what may be ancient history to some, the Harrisville School Building Committee, hereinafter called the Committee for the sake of brevity, would like to place before the voters of the School District of Harrisville a summary of the activities of the Committee as well as the Informal Planning Committee consisting of Ernest Chamberlain, Howard Lavigne, William Bemis, Charles Bergeron, John Colony and members of the School Board, which preceded it.

In the Fall of 1944, the Planning Committee consulted Mr. Paul Farnum, State Field Director of Education, and upon his suggestion the Planning Committee on November 15, 1944 visited five New Hampshire schools roughly comparable in size to what was felt to be the need in Harrisville. These schools had been built between 1937 and 1940 and ranged in price from $8,500 for a two room elementary school to $30,000 for a four room school with an auditorium and library. As a result of this trip, the Planning Committee gained the impression that $30,000 was the top figure for as elaborate a school as a town the size of Harrisville could be expected to have and, indeed, such a school would be equal to, or beyond that in any comparable community. This top figure of $30,000 was transmitted to Mr. Wellington Wells in a letter informing him of the projected school and on January 17, 1945, the Planning Committee called a special school meeting for the purpose of presenting its findings to the District. Mr. Farnum was present and gave a talk describing the various features of the schools visited.

The Planning Committee then began laying the groundwork necessary in the first steps of making the school a reality with the result that an Enabling Act was put through the Legislature raising the borrowing capacity of the School District up to $45,000 for purpose of building a new school.

Just in time for the Annual March Meeting in 1945, a letter arrived from Mr. Wellington Wells and the letter was read at the meeting. This letter contained Mr. Wells' offer to give the School District of Harrisville $30,000 to be used in the building of a new school. The unexpectedness of this offer resulted in no further action being taken at the meeting except to vote authorizing Mr. Wells and Mr. Colony to appoint a School Building Committee.

A special meeting of the School District was held on July 7, 1945 for the purpose of formally accepting Mr. Wells' gift in accordance with the terms of an agreement to file with the School Committee and subsequently the School Building Committee was appointed as follows: Mr. William Bemis, Mrs. Charles Bergeron, Mr. John Colony, Mr. Wellington Wells, and members of the School Board.

During the summer, the Committee met many times for the purpose of discussing sites, architects, contractors, plans, the feasibility of building at the present time, the question of whether it was even possible to build at the present time, and other pertinent matters relative to making the new Harrisville School an actuality. Besides these meetings, a trip was made to four New Hampshire schools, including the two which the Planning Committee had felt most desirable on the first trip, plus two others which were suggested by Mr. Farnum.

Finally, at two different meetings, a group of leading architects from New Hampshire and Massachusetts were present and gave their views in regard to new building trends, availability of materials and the possibility of commencing construction. These architects were suggested by the State Board of Education and were those most experienced in building New Hampshire schools. The Committee, after a great deal of deliberation and careful inquiry, decided upon Mr. Norman P. Randlett as architect for the school. A series of meetings with Mr. Randlett followed and after becoming thoroughly familiar with the needs of the District, both as outlined by the Committee and with the advice of Mr. Farnum and Mr. Frye, the Superintendent, a preliminary rough sketch was presented to the Committee by the architect. As near as could be deter-

mined, a three room school with auditorium constructed at the present time would cost in the neighborhood of $45,000, not including the cost of land, water, landscaping or furnishings. These items would come to an estimated $5,000, totalling $50,000 for the completed unit. The additional $15,000 over the $30,000 for which it originally appeared a school building could be built represents the average 50% increase in building costs in the present era of rising costs of labor and materials.

The Committee now has available for the building of the school the following sums:

Gift of Wellington Wells,	$30,000
Gift of Cheshire Mills,	3,000
Gift of Mrs. George A. Thorne,	100
Raised by the Town and earmarked for school purposes,	900
Total,	$34,000

The committee deliberated at great length over several sites, taking into consideration the factors of central location, in order to keep transportation costs at a minimum, as well as sightliness of location for the fine type of building projected. An attempt was made to secure an option on one site but difficulties have arisen making that impossible as yet so that alternative sites may again have to be considered, unless eminent domain procedings are instituted.

Your Committee is somewhat staggered at the increased cost of construction in the present market but feels that construction cost will not drop materially for some years to come, although the availability and variety in selection of materials will improve with the passage of time.

In final analysis, the major issues are in regard to the proposed site, the advisability of immediate or future construction and the scope and size of the proposed school. The matter of a site, in view of the difficulties that have arisen in securing the same, needs further consideration. The question of when to start construction de-

pends on how pressing the need is for a new school and what your opinion of future costs and material availability may be. In regard to size it should be borne in mind that it is estimated that a three room school can still be built within the figure of money at present available by eliminating the auditorium for the time being, but that the scope of a consolidated school is to furnish lunching, recreational and congregating facilities.

Your Committee respectfully submits this summation of its efforts and accomplishments to date and invites your discussion of the above stated controversial issues.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Harrisville:

I herein submit my third annual report as superintendent of schools.

The American Constitution has proved itself to be—as the great statesman, William H. Gladstone, once said, "the most wonderful work ever struck off at a given time by the brain and purpose of man." Its fundamental purpose—"to promote the general welfare," as defined in the preamble, makes public education for desirable purposes the most important individual, community, state and national enterprise. Now that we have plunged into the Atomic Era a higher level of universal education is imperative.

"The men and women in uniform are coming home having finished the gigantic job of making human freedom possible. Victory in the war against prejudice, greed and ignorance necessitates another great invasion in which the penalties of failure are as grave as military disasters. The knowledge, skills and the understandings gained by our young people in the next few years will determine whether this country can or will solve the difficult social, economic and political problems that make peace possible. The implications of all of this is very clear. The teachers have a key position in the most essential business of all. The commandoes of the peace must be well trained and equipped if their mission of 'the general welfare' is to be accomplished."

At the White House Conference on Rural Education in 1944 some interesting facts were revealed concerning the need for better educational opportunities for rural children. Due to the fact that these rural children of school age constitute more than half of such children in the nation something must be done.

Our own school district has a program to solve this problem as it applies to the town of Harrisville. Through the foresight and generosity of Mr. Wellington Wells the sum of thirty thousand dollars was presented to the town for a new school. This gift was presented and accepted at a special district meeting for this purpose on July 7, 1945. Two other gifts for the new school amounting to thirty-one hundred dollars were contributed, $3,000 by the Cheshire Mills and $100 by Mrs. George A. Thorne. These contributions for the general welfare of this community are greatly needed and appreciated. The new facilities for education and recreation will do much to develop better health and citizenship.

The building committee, under the able leadership of Mr. Wells and the advice of authorities in this field, have tentative building plans available at the present time. Mr. Norman P. Randlett of Laconia has been selected as the architect and as soon as general business conditions make it possible to obtain labor and satisfactory materials the actual construction of the new building can be authorized. In the meantime special consideration can be given to the building site and the numerous problems that might further delay the project.

CONCLUSION

Several of the activities in the schools which originated as war time projects should be continued because of the habits of health, thrift and citizenship, which they promote.

It seems that more so called "extra curricula" activities are essential in our elementary schools in order that special interests and abilities be developed.

I wish to thank the teachers, parents, citizens and school officials for their continued cooperation during the past school year.

Respectfully submitted,
JOHN H. FRYE,
Superintendent of Schools.
